

THE LEAVES

You're invited to

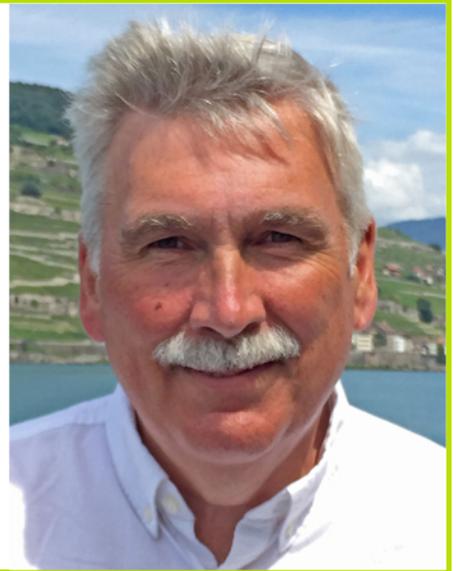

A Christian Science Lecture

sponsored by First Church of Christ, Scientist, Richardson

TIME IS NOT A FACTOR IN YOUR LIFE

by Dave Hohle, CSB

MONDAY, DEC. 18 at 7:30PM
at The Leaves. Join us in our Great Room!

When Dave was five or six years old, his mom told him that if he ever got in real trouble, he could reach out to God and God would help him. Not long after that he found himself mid-air, falling backwards. In that moment he remembered his mom's promise and reached out to God. An idea came to him that brought that moment of terror to a harmless close, and opened for him a lifelong knowledge that he could really trust God in any situation.

Throughout his boyhood, he experienced and witnessed many instances of God's practical guidance and protection. And by the time he graduated college, it seemed natural to let God guide the first few steps of his career.

From the start, the real work has always been about patience, perseverance, intelligence, focus, problem-solving, ethics, progress, attention to detail, and learning to combine "wisdom, economy, and brotherly love" in every situation. In 2000, Dave rented an office part-time to help people through prayer. He was only there a couple times a week, but the devotion of thought to that work seemed to open it up, and after several years he left his work in management and entered full-time into the public practice of Christian Science. A few years later he applied for a seat in the 2009 Christian Science Normal Class, and then relocated, along with his wife, Carol, and their dog, Ellie, to Chicago, where he now practices and teaches. They live in a townhome in a beautiful neighborhood just South of the Loop and right near Lake Michigan, which is some of the most beautiful and swimmable fresh water in the world!

He has had many experiences that have demonstrated the presence and availability of God in a flash, and that in any situation, "underneath" truly, "are the everlasting arms."
